

# Road Rally Ahead

Touring Road Rally: A touring road rally is a time-speed-distance (TSD) motoring event requiring navigation skills as well as driving ability. Competitors must determine their proper time of arrival at various points along a common route over public roads according to a set of precise written route instructions. Using the relationships of distance, speed, and time to calculate their progress while keeping to assigned legal speeds, success is measured by arrival at the destination point being neither early or late, for a perfect time.

**LEGAL NOTICE:** This activity is not affiliated with any organization, club, or internet discussion forum, although it is being publicized in several places. The organizers of this tour are simply providing a route map and turning instructions. This route map and instructions are provided for informational purposes only. The route uses roads that are open to the public and are not monitored or controlled in any way by the route providers. The route providers/developers are not responsible for the behavior of any drivers or passengers and have no control over them. All participants are responsible for their own behavior and should act in a safe manner, obeying all laws. As a participant you acknowledge that driving or riding in a motor vehicle involves inherent risks which can result in property damage, serious injury, or death. You also assume all risks, and waive any and all claims against the route providers or developers.
